PROFESSIONAL PROFILE

Final-year Computer Engineering student, specialising in software development and Data Science, with hands-on experience in process automation. I work with Python, React, TypeScript, FastAPI, MongoDB, Power Automate and SharePoint, combining Full Stack development, data analysis and automation.

EXPERIENCE

Computer Engineering Internship 02/2026 - 07/2026
U24 Los Angeles — Córdoba Córdoba

- Automation of internal processes with **Power Automate, SharePoint and Microsoft 365**.
- Development of solutions and customisations with **SPFx, TypeScript and REST APIs**.
- Automation of document management, document generation and information processing.

PROJECTS

ValoInsight — Final Degree Project 01/2026 - present
Full Stack & Data Analytics

Web application for processing, analysing and visualising data from the video game VALORANT. Frontend developed with React and TypeScript, REST API with Python and FastAPI, and persistence with MongoDB. Implementation of data-processing pipelines and statistical visualisations.

Sports Court Management

Academic Project | Java & MySQL

Java application for managing users, courts, equipment and sports bookings, with persistence in MySQL through JDBC. Developed using a layered architecture and DAO/DTO and Factory patterns to separate data access, business logic and the creation of different booking types.
